Right ventricular function and pregnancy in congenital heart disease

Proefschrift

ter verkrijging van de graad van doctor aan de

Rijksuniversiteit Groningen

op gezag van de

rector magnificus prof. dr. Cisca Wijmenga

en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

woensdag 25 november 2020 om 14:30 uur

door

Anne Suzan Siegmund

geboren op 19 mei 1993
 te Zoetermeer

Promotores

Prof. dr. Dirk Jan van Veldhuisen

Prof. dr. Catherina M. Bilardo

Copromotores

Dr. Petronella G. Pieper

Dr. Michael G. Dickinson

Beoordelingscommissie

Prof. dr. Rudolf A. de Boer

Prof. dr. Basky Thilaganathan

Prof. dr. Werner Budts

Financial support by the Dutch Heart Foundation for the publication of this thesis is gratefully acknowledged.

Drs. Bernadet T. Santema

Drs. Sebastiaan H.C. Klaassen

Content

Chapter 1	Introduction	9
Part I Pathophysiological mechanisms		
Chapter 2	Uteroplacental Doppler flow and pregnancy outcome in women with Tetralogy of Fallot. <i>Ultrasound Obstet Gynecol. 2017 Feb;49(2):231-239</i>	21
Chapter 3	Pregnancy in women with corrected aortic coarctation: uteroplacental Doppler flow and pregnancy outcome. <i>Int J Cardiol. 2017 Dec 15;249:145-150.</i>	43
Chapter 4	Maternal right ventricular function, uteroplacental circulation in first trimester and pregnancy outcome in women with congenital heart disease. <i>Ultrasound Obstet Gynecol. 2019 Sep;54(3):359-366.</i>	63
Chapter 5	Reduced right ventricular function on cardiovascular magnetic resonance imaging is associated with uteroplacental impairment in Tetralogy of Fallot. <i>J Cardiovasc Magn Reson. 2020 Jul 16;22(1):52-020-00645-9</i>	83
Chapter 6	Abnormal venous hemodynamics in pregnant women with Tetralogy of Fallot: A case series. <i>In preparation</i>	101
Chapter 7	Cardiovascular determinants of impaired placental function in women with cardiac dysfunction <i>Submitted</i>	111

Part II Clinical factors

Chapter 8	Early N-terminal pro-B-type natriuretic peptide is associated with cardiac complications and function during pregnancy in congenital heart disease. <i>Submitted</i>	135
Chapter 9	Doppler gradients, valve area and ventricular function in pregnant women with aortic or pulmonary valve disease: left versus right. <i>Int J Cardiol. 2020 May 1;306:152-157.</i>	151
Chapter 10	Summary, discussion and future perspectives	169
Appendices	I Dutch summary Nederlandse samenvatting	182
	II Acknowledgements Dankwoord	184
	III List of publications	189
	IV About the author	191
